Balu Forge Industries Ltd (BFIL)

Who we are & What we do ?

Company Overview

Balu had a humble beginning in the year 1989, in Belgaum, India. It has been a long journey & over three generations of the Balu Family have worked to build a truly global enterprise. But we have only just started & endeavor to become one of the largest Precision Engineering & Metal Forming Company in the world. We have also adapted to the changing times & enhanced our product portfolio to meet both the needs of both the Conventional ICE Applications & the New Energy Vehicles.

The Defence Project

A large part of the Capital Investment for the next 10 years is planned towards Defence Production with also key Joint Ventures / Technology Partnerships in the Pipeline. The key areas planned in the coming years are Artillery, Undercarriage parts for Armored Vehicles, Weapons & Ammunition for Light & Heavy regiments and Forged & Machined Components for the Engine Division. There is a Dedicated Unit planned for Ammunition & Advance Defence System Production in partnership with prominent players in the Global Defense Production Mix. In Addition to the Dedicated Defence Production Facility, the R&D & Innovation Campus in Belgaum, India will spearhead the strategy laid down to build Advance Defence systems & solutions. The R&D unit will work through a 4000 Square Meter Technology Center fully equipped with State of the art Equipment. We have also secured & successfully supplied for many years to Defense Forces in two prominent European Countries and executed supply as a single source to these nations. There will continue to be a strong focus on further expanding the reach & customer base amongst more Defense Organizations globally & building a strong Defence Production Center for the Local & Global Defence Industry.

The Railway Project

MANUFACTURING PROCESS

WHEELS

AXLES

WHEEL SETS

The Railway Project

BFIL has evolved to produce a wide range of wheels, axles & wheel sets to meet the needs of our customers. Hence contributing sustainably to the Indian government's Make in India initiative. We are one of the few fully integrated businesses, producing wheels, axles & wheel sets all under one roof. The firm has an experienced railway vehicle design & development team on hand to serve our patrons with prompt, high-quality & end to end solutions. The company meets the bulk requirements for locomotives, passenger vehicles, freight vehicles & other coaching vehicles in terms of wheels, axles & wheel sets. We produce high-quality wheel sets for clients all over the world with a production capacity of about 6,000 wheelsets per year to start with offering a diverse application suitable for railway wagons, passenger coaches & locomotives in various gauges. The company has successfully initiated supplies to Indian Railways & successfully negotiated a long term contract with a Middle Eastern nation.

Balu Forge Industries Ltd (BFIL)

New Energy Vehicle Sector

At Balu we endeavor to be ahead of the curve in the New Energy Vehicle Space with a clear emphasis & focus on Development of Efficient & Innovative Solutions for the New Energy Vehicle Sector. With decades of experience in Precision Machining & Metal Forming, we have used this to our advantage to offer a range of products for the New Energy Vehicles. Product Range: Our Solution Ranges from a range from products in the through the Space of BEVs/PHEVs/Hydrogen Vehicles. The process involved conventional automotive excellence partnered with the incremental innovation to offer minimum weight, maximum load-bearing capacity, high reliability & overall cost-effectiveness.

Powertrain Subassembly

- Focus :
Offering assembly solutions to our partners to aid in a plug & play solution to the assembly lines
- Product Offering :
Primarily to the Agricultural equipment sector & will shortly also offer solutions for the Heavy Duty applications
- Product Assembly Overview :
Crankshaft, Cylinder Block, Cylinder liner, Bearing, Pistons (Complete set incl of Pistons, Pin & Rings), Connecting Rods
